Sorry for my English ?

I'm going to leave this thread to send it for free to anyone who is interested, because although, as the friend below says, it is public, I do not agree with him that everyone knows it.

Vouch review:

Well, i'm gonna be honest.

The "method" is in spanish and it is a public method, which I think everyone knows about (not going to say exactly what it is, but its about those promotions that cryptocurrency wallet / buy / sell sites have)

EDIT: He provided me an english copy of the e-book! Just messed up the links.
