I have a recording studio and I engineer vocals/produce beats and also make my own music. I just sold all of my old equipment and am upgrading my microphone, speakers, and audio interface, gonna cost me around \$2,500-\$3,000 but hopefully it will pay off. Check out some of my pre-released music on my soundcloud <https://soundcloud.com/peauxpe/sets/lil-pope-project>

This music isn't finished but I just uploaded it to let my friends listen to it.

Bet bro, those are really just some throw away beats on there, I have all my really good ones just on my computer, not sure what to do with them really, just been sending them to some local artist. I worked with a guy called JayDaYoungan before not sure if you know who he is.
