Thread: [Has anyone actually made decent money from a money making method/gambling method?](#)

Goals - April 6, 2019, 3:38 pm

I always assumed money making methods never work. If they do work, then its all dependent on chance. For example, I believe a lot of methods are selling products. Whilst selling products can be profitable, its all dependent on chance (acquiring a customer is dependent on chance/your marketing). So the method isn't really 100%. Plus I can learn about selling products, marketing etc for \$15 on Udemy (warez disallowed).

Has anyone ever encountered a money making method where they actually made a decent profit and didn't involve chance. It was 100% guaranteed & not illegal? I'm not looking, nor have I bought any methods, just sparked some curiosity.

All the great reviews I see on the forum for these methods are usually vouch copies. We all know vouch copies are the most useless things there is. Who ever receives them always gives a positive review so they are able to get more vouch copies in the future.

Matched betting. If you have some money to invest then you can make £500ish profit in a few hours (no risk whatsoever)
100% legal and tax free.

If you are interested in learning more send me your discord.

Oh I forgot about arbitrage betting. Those aren't even methods though. I've seen one on HF and it was a arbitrage betting series, not these shitty e-books. I considered making a program for detecting arbitrage for my country's betting sites. However, you can easily get banned from betting sites by doing arbitrage betting and betting sites can cancel your bet. If they do, you are screwed. Plus, there are sites which do this already if you want to do it from time to time

Also you can't make £500 in a few hours unless you are investing like \$50,000. Most arbitrage betting profits around 1-2%. I wouldn't do arbitrage with more than \$200.

The method I have in my signature , may have biasm. But I've made a good amount of money from very little work. You can look at vouch copies , not saying buy it. But if you really ever need anything , it's not going away any time soon. I've also used a few other methods on here that have made me money. If you want you can PM me and I'll tell you which ones. But you really just have to find what works for you.

Unfortunately, you are mistaken. You are describing something different.

I am describing matched betting. My method allows me to make £500 in a few hours with minimal investment (a few hundred at most).

It's literally collecting free money.

I just googled it, it looks like the free bets are pretty low. Its like \$10 - \$20 for free. You have to do this a lot to get \$500

My question to this would be, if you can make \$300 a night, why are you selling the method for \$100. Let alone, selling the method at all? Also the thread says "not selling/buying" but then the thread comments suggest buying/selling.

Like I said: you can make £500 in a few hours.

How do I know? Because I've done it.

I have been making good money online for years

Been using methods I found out working through the time

iabm123 - April 7, 2019, 12:47 pm

I don't doubt for a second that people are making ridiculous amounts of money online. I'm doubtful about people returning here to share that information at a price though. I've been looking into this on and off for years. I get it but I just don't have the technical knowledge to take it to the next level. This is where I get sceptical about 'mentorship' and 'e-books', to me, that's where you are earning the

money, not the method.

You're talking about arbing but he's talking about matched betting, 2 different things, you'd need to invest no where near \$50k to make £500.

Both are good however but matched betting is just way more beginner friendly are the profits are usually a way lot higher.

Are you disabled?
At no point did I mention fixed matches.

It's called matched betting. I suggest you learn before you hand out warnings.

I don't trust anyone who claims to sell a money making method anyway. Which sane person would sell a money making method where you can make hundreds a day?

Beginners reap the highest rewards with this method. Once you've completed everything once, the rewards drop significantly.

Also, a good business mind will have more than one income.

Tomek Radomski - April 10, 2019, 6:42 pm

There are good methods
Not gambling ones tho

Humbleslayer - April 12, 2019, 4:42 am

Hello is the method free or being sold?

Theocritus - April 12, 2019, 6:50 am

some of the books/eBooks I've bought have in the end probably made me well over \$100k

Esse - April 12, 2019, 8:53 am

lost 0.13 btc on bustadice two days ago :(

Tomek Radomski - April 12, 2019, 8:55 am

Gambling should be considered as a fun activity, not money making one..

Moskov - April 12, 2019, 10:01 am

The only good money I made online were with an exploit I found myself
It is still earning me nice amoun so I don't complain :)

int - April 13, 2019, 9:16 am

its a fucking gambling method so no chance

lirisamp - April 13, 2019, 3:25 pm

If you are making 10 000\$ per month with a method, does it make sense to sell it for 50\$ and take the risk to bring competition ?

Hey man, looking to get into matched betting, but hit a roadblock being in USA. Know any easy way to do it as an American?

Astrogen - April 13, 2019, 10:20 pm

Yes, I earned like around \$2k+ before it died. It was nice since no investment at all, but got patched :(

Moskov - April 14, 2019, 5:15 am

There are still a nice methods tho

buffer008 - April 14, 2019, 9:09 am

This is supposed to be a gambling site,
so you can make money so quickly.

Shaggy - April 14, 2019, 9:11 am

I have bought a few methods here which didn't work but taught me things on how to do on certain situations and tricks

Now I have used them and made my new strategy for it and making money now

made you so much that now you have to beg to review methods so you can get the ebook for free since cant afford to pay for it. also arent you the guy who was selling spotify tools for 20 bucks lol

BTC - April 15, 2019, 6:06 pm

Here is the only ebook you will ever need and its only 4 steps.

1. Buy ebook on different forum
2. Rewrite, make it look pretty and put fake proof of earnings
3. Sell ebook
4. Create terms of service so customers can never share details of the "method" ;)

Khasper - April 16, 2019, 9:53 am

Lots of really stupid people posting here, if a method can't get saturated and you can earn \$30-\$100+ everyday for 5 mins of work - why not?

I see people hate on ebook sellers on every forum I visit but trust me - they make more then you do.

So many people jumping to say nothing works lol

Gh0st1337 - April 28, 2019, 7:03 pm

Well these "money making ebooks" is mostly scams, bought "somewhere" few books unsaturated etc blah blah, never got any money of them beside then when i sold those around and got money back which i spend on those. Bought one book here, never got money with those "tutorials".

But good money i have been collected selling iptv services (buffer free etc) also hosted plex service and sold subs low as 5\$/month. atm earned nearly 5k in few months by doing this. and i only invest around 200€ so profits are 4800€ atm.

Betting on games is 50/50.

Sceptic - April 28, 2019, 8:26 pm

ehh, I have profitted off like 20% of the methods i have purchased (I have boughten like 5-6)

honestly, it is not always a bad idea to buy them, I bought them just out of interest not actually looking for the next big thing

No hate to sellers tho, it's not a bad idea

Accounts4U - April 28, 2019, 10:08 pm

Personally, if I had a way to make money, would I share it ? No chance, that's how loop holes etc get fixed.

I had a method once and we rinsed it. Took alot of money from it over a 12 month period. It wasn't illegal but the bookies banned me regardless lol

These guys offering ebooks etc are all liars. There's no way I would be wasting my time putting together ebooks and marketing them when I could be making money. So anyone who says "I make hundreds of dollars per day, come and buy my ebook which has hours of contract for just \$10", these guys are liars

When methods become less profitable or I move on to something that makes more money and I need startup, then I sell them pretty much.
