Thread: [***CURRENCY EXCHANGER*** BEATING OTHER RATES - AMAZON 70-75% - CRYPTO/OTHER GIFTCARDS](#)

TITAN OF THE WEST - April 7, 2019, 2:26 am

I will beat other exchange rates(I.E if another exchanger offers 70% for your Amazon, I'll do 71%)

Please use the format below if your PMing me - It makes exchanges go so much faster for us both!

Hi,

I am now looking to offer currency exchange services to HF.

Update 04/9/2019: I now sell cryptocurrency/Paypal/Skrill for WU & Moneygram & Walmart2Walmart @ +15-20% - minimum \$200 - Your fees!

I also now buy cryptocurrency for WU & Moneygram & Walmart2Walmart @ 95% - \$500 minimum - Your fees!

Note: I only buy AMAZON.COM gift cards

Note 2: If your wanting Paypal -> I ONLY pay Goods & Services -> I run things on the white hat side and I dont get on the bad-side of Paypal - I will NEVER pay F&F -> G&S payments are often held 7-21 days for non-verified Paypals -> You have been warned.

Note 3: As I pay G&S all Paypal fees are on you.

Note 4: I never go first -> Dont waste your time asking.

Note 5: Minimum trade is \$25 USD.

I am offering the following:

I buy Amazon.com giftcards for Paypal/Cryptocurrency(BTC/BCH/ETH/LTC)/Zelle/Cash App/RSGP between 60-75% depending on card value. I will pay a premium for physical gift cards mailed to me.

I buy amazon prime transfer -> Contact me for rates.

I buy STEAM balance giftcards for anywhere for a negotiable rate(Contact me via PM)

I buy other gift cards(Kroger/Gas cards preferred but I buy others to) that are physical for an negotiable rate(normally 40-70%)

I buy other gift cards(Kroger/Gas card preferred but I buy others to) that are virtual for an negotiable rate(normally 20-40%)

I buy BTC/ETH/LTC/BCH/XLM for Paypal/Zelle/Cash app @ 92-98%.

I sell BTC/ETH/LTC/BCH/XLM for Zelle/Cash app @ 104-115% - I am not often selling -> Please PM me asking for availability -> If I dont respond-> I'm not in stock.

Contracts will be used. Do not start a contract with me until negotiations are done via PM or other messaging systems.

All trades are done in USD.

I will respond to PM's within 24 business hours - If you dont get a response - I'm not interested in doing business with you.

If possible, please use this format when PM'ing me:

What are you selling/buying:

Amount your selling/buying:

Your asking price(\$) or % and desired payment method:

Links to all your on-site or off-site reputations/profiles(More trust you have, more comfortable I feel doing business with you):

Get some rep first before you throw your money at a sticky. You are either going to get scammed, or not going to get enough buyers, and it looks like you might scam them. Chill out and build reputation, this isn't eBay.

I hope you do well!

(Apr 10, 2019 05:12 PM)shadowminer Wrote: [\[CITE\]](#) Hey I'm looking to exchange my \$200 amazon gift card for \$186 worth of ethereum or bitcoin at time of negotiation.

I have the claim code available and ready to send as soon as you're ready.

Considering this is a 7% fee, I believe this is more than reasonable.

I'm looking to create a reliable relationship so that we can do business in the future. If all goes well I'd like to do this exchange, ~\$200, once or twice a month regularly.

PM or reply for negotiation.

Cheers.

That's right OP, it's more than reasonable!
