It's for a team called Odysseus. They wanted a simple edit so I did this in less than 2 hours.

Tell me what yall think and if you don't mind retweeting that would be very much appreciated!

Just asking for feedback in the comments. (THE QUALITY IS 1080p HD BUT TWITTER MAKES IT SHIT.)

Good job OP, I can't believe it only took you 2 hours to do that, what editing program did you use to make this with?
