Thread: [\[REL\] Habbo Tools Pack \[/REL\]](#)

Lyrinxio - April 7, 2019, 1:04 pm

Hi there! This is my first post ever on this forum. And I'd like to release these useful tools you can use for your custom retro. I know Habbo is dying but maybe someone is interested in using this.

Download: anonfile.com/v6Bac9a5nb/Habbo_Tools_rar

The pack includes:

- Flash Decompiler & SQL Decompiler
- Furni Editor v1 & v2
- Habbo Clothes downloader/ripper
- Habbo UI Editor
- HxD
- Phoenix Commander
- SQL Maker

NOTE: Might see some tools as malware because it does contain some cracked code.
