Probably one of the most profitable highly scalable e-comm business models is severely overlooked, which is Amazon FBA (fulfillment by Amazon). Most people are attracted to other models such as Shopify, affiliate marketing, etc. because of how mainstream they are - yet with Amazon growing exponentially every day, this is your chance to get into a massive market that is still in its early stages. For those who are unfamiliar with what Amazon FBA is, you are purchasing products from wholesalers and sending them to Amazon's warehouses. Your items are then listed on Amazon for anyone to buy, and anytime you get a sale Amazon will automatically ship the products for you and cover shipping for free as well as handle all customer support. You simply pay fees for each sale you get and the profit is yours.

By taking part in this mentorship, you will be learning step-by-step how to start your own e-commerce business on the largest online marketplace in the world. The scaling opportunities are limitless, it is not uncommon to see sellers doing a cool 6-7 figures PER MONTH just from selling products on Amazon. The best thing about selling on Amazon is that it does not require any particular skills or previous experience, just about anyone with an internet connection can turn their Amazon business into a multi-million dollar revenue stream.

What you will be learning through the course of this mentorship:

How to do product research, which products you should sell and which you shouldn't

Setting up your listing

Optimizing your listing to increase sales

How to set up and manage PPC campaigns

How to advertise in untapped markets outside of the Amazon marketplace

Getting your listing ranked quicker and kickstarting sales

How to increase reviews on your product

Access to \$6,000+ in paid informational content

Much more...

With almost 2 years of experience, I've acquired enough knowledge in just about every aspect of

this business model to lead you in the right direction and minimize your chances of failure. To give you an idea of how fast you can see returns, one of the products me and a previous partner sold together finished our first 30 days of sales with over \$12K in revenue. That's just from 1 product, in the very first month. You will also have access to my private student group where you can help and get help from the other students. Below will be a summary of each mentorship option I offer, which is designed to be able to help everyone no matter what their budget is.

Option 1 - \$300:

Spoiler ([Click to View](#)) Access to over \$6,000 worth of paid content (hours of videos that walk you through everything)

Basic support, not a 1-on-1 mentorship

Option 2 - \$800:

I realize the pricing may be high for most, however it is well worth your investment due to the massive potential this business model has. The amount of knowledge you will receive greatly outweighs the price, considering this is something that could start a lifelong career for you. I want people who are serious about creating a steady source of income for themselves, someone who isn't lazy and is ready to take a big step towards having their own e-commerce business. If you aren't willing to invest in yourself, then maybe the entrepreneurship lifestyle isn't for you.

FAQ

Spoiler ([Click to View](#))

Can this be done worldwide?

Yes. You aren't actually touching any of the products. No matter where you're from, you'll be shipping directly to Amazon's warehouses in the US.

How much can I make from this and how long?

The way our system works, we only look at products that are selling at minimum \$5,000 revenue per month. It is not uncommon to see products doing anywhere from \$20k - \$100k+ per month, the scaling opportunities are limitless. Our mentorship lasts for a total of 2 months, first month will involve learning the basics and finding your first product to sell. The second month will consist of getting your product ranked, increasing sales, getting reviews, etc.

How much money do I need to start with?

I recommend around \$500-\$800. This will cover your inventory, the various investments for listing optimization, and the other tools needed.

Still taking in new students, contact me if you have any questions!

shelled - April 16, 2019, 8:46 pm

I honestly believe this is real given the market on Amazon.

sterile - May 3, 2019, 5:05 pm

I am one of Mvmt's students. Been doing this for 5 months now. Have done 1 product, unfortunately I didn't pick a winner for my first product.

Gonna continue working with mvmt until I can get something going though!

If you are interested in a long term real businesses strategy this is a good way to go. I wouldn't expect to win right away though its not easy/

PraiseTheSun99 - May 3, 2019, 5:54 pm

I have a couple of questions. Could you pm me?
