Thread: [HOW I MADE OVER 3 BTC IN A MONTH - 5 COPIES AVAILABLE ONLY \[72H\]SALE \[PROOFS ADDED\]](#)

IAmDaniel - April 7, 2019, 5:17 pm

So, I have decided to put my most private method for sale. This method I have been using for as long as 4 years and I can easily say it made me 100k+
For this method you will need to be able to speak English as you will be speaking with other people
Investment is not needed but it helps. Prepare 50-100\$ to do good
1 hour daily is required to make it work good
Payout is in
Crypto,PP,Bank,Agc,Cash
Earnings are daily, you start earning on day 1
Method is semi-autopilot
It is whitehat but if there is greyhat option for bigger earnings
With the purchase you receive personal support from me

COPY 1: 500\$ --- SOLD
COPY 2: 750\$
COPY 3: 1000\$
COPY 4: 1500\$
COPY 5: 2000\$

Something is off.

You've been using this method for 4 years and supposedly made 100k\$~ in total but you made 15k\$~ in a single month?

Also, why would you sell your method at 500-2000\$ while you just made more than 10k?

Of course. You are pretty new here and claim you have been making more than \$100K using a method you charge \$500 for? And you are hesitate with giving out vouch copies.

Your proof doesn't mean anything at all. It is super simple to fake it.

I am not saying you are a scammer, this method might very well work. But it's plain stupid to be shaking your head at people for asking for vouch copies.

I will be looking forward to seeing someone reputable reviewing this at some point.

Also you seem super arrogant and rude in the way you comment. I would not trust that you would take time to "Mentor" me if I faced any issues.

That is not how business works.

Even though this is HackForums, you are still running a business. No matter how a potential buyer talks to you, you should stay polite man.

Anyway, good luck with selling your method. I hope it is worth it for whoever buys it.

But a potential buyer does not care about that.

He sees how you react, nothing else. If I was a potential buyer I would have been scared away on the very first page, no matter if it is the other guys' fault. A potential buyer is not buying anything from the other guy, he is buying something from you and therefore he looks at what you are saying isolated from what anyone else says.

OP you have some serious denial issues. Hustling your way to the top isn't going to solve your
money problems.

What we are trying to tell you is that without proper proof, it is highly unlikely that your method is
legitimate in any way.

Let me allay your concerns. Your local taxation office is unlikely to have tabs on your anonymous
profile online. Even so, screenshots of a crypto transaction is not actionable evidence for them to
even consider prosecuting.

If I sell a product on eBay my buyers will expect an image of the product, a competitive price,
perhaps even several images of the product. They would expect a few reviews, preferably positive
ones; maybe even a rating on my merchant page if I was a reputable merchant.

To play your game, I will even comment on the fact that if someone was actually stupid (or rich) enough to buy your "product", you are still passing a screenshot of your "risky omg the IRS is coming" transaction to a stranger! This stranger doesn't give a shit about you! Although he did just pass you a bunch of money, (this may surprise you) but he is simply doing this to cut corners (just like you are), and probably wouldn't spare a dollar on you, even if you were homeless, on the street.

What you are trying to sell doesn't exist, its a fugazzi. Faguzzi, fugazzi, it's a whazzie, it's a whoozie.. it's a.. fairy dust. It doesn't exist. It's never landed. Its not on the elemental chart... Its not fucking real :)

so I take your not giving any vouch copies?
and you expect us to believe the method even it does work how do we verify it?
I guess no of us can't
Its better you give one vouch copy and once he reviews it'll be helpful for your sales if not you will have more people trashing your thread

How about you start reading thread replies and research his open dispute...
He is here to scam and he already established to make multiple victims yet you advice him to give a vouch copy away.
