Astrogen's Wolfpack Application

What could you bring to wolfpack as a whole?
I can bring my knowledge in graphics to wolfpack and share them stuffs that I know.

How active are you willing to be within the group?
I can be active as much as everyone else as long as I can still do my daily chores and the stuffs I need to finish in real life. There will be days that I am not active or totally offline but most of the time, it is just on important occassions or important events such as exams where I have to study.

What are your main topics/discussions you are knowledgeable in?
I am knowledgable in certain aspects of graphic design. I love challenges such as copying something from a picture and create a finish product close to a real one.

Why do you want to join Wolfpack?
I want to join Wolfpack since I still cannot call myself a part of a team besides being a hackforums member. It would be really awesome to have people that you can talk to.

Why do you think you should be accepted into Wolfpack?

I think I should be accepted because a team of wolfs would be awesome if they have a pup within them. Someone they can help mold and grow. I would be very glad to share what I know. I also edited the "Why Do" to "Why do" which I think, is grammatically incorrect. Thanks!

Attack's Wolfpack Application

What could you bring to wolfpack as a whole?
I could bring hard work and dedication, some generalised knowledge on subjects and critical thinking. I'm no genius but I work hard, and use tools like google to my advantage.

How active are you willing to be within the group?
Very active, daily. I recently bought L33t and I want to gain notice on the forum.

What are your main topics/discussions you are knowledgeable in?

Programming, white hat stuff(mainly virus removal etc), lounge talk, beginner hacking (learning myself using resources and ebooks such as black hat python).

Why do you want to join Wolfpack?

Because it will be my first proper user group apart from L33t, and that sounds amazing to me. I want to join a good community of people and make new friends and have some good discussions about relative events, hacking news and new programs/tools on the market.

Why Do you think you should be accepted into Wolfpack?

I apply myself well to every situation, if you set me a task and I don't know what to do then I'll use a search engine or a friend and not pester you. Not to mention I'm an active member of HF and only hope to keep adding hours. English is my first and only language, and I'm relatively proficient with grammar.

Secretly I want to say Woof with purpose.

If I didn't think so, it wouldn't apply.

"You guys might not know this, but I consider myself a bit of a loner. I tend to think of myself as a one-man wolf pack. But when my sister brought Doug home, I knew he was one of my own. And my wolf pack... it grew by one. So there... there were two of us in the wolf pack... I was alone first in the pack, and then Doug joined in later. And six months ago, when Doug introduced me to you guys, I thought, "Wait a second, could it be?" And now I know for sure, I just added two more guys to my wolf pack. Four of us wolves, running around the desert together, in Las Vegas, looking for strippers and cocaine. So tonight, I make a toast!"

Why Do you think you should be accepted into Wolfpack?

I will try to bring nothing but my best to the group, making the group better.
