Well with our service, you don't have to fear that anymore!

All of our proxies are checked upon purchase; so you will not get a dead proxy! "

Its been more than 3+ days. No proxies work, tried all options on all 4.

Him replying proxies work (after 72 hours)

> <http://prntscr.com/n968x3>

Time I bought the proxies (1 HOUR BEFORE PUTTING THIS DISPUTE UP)

<http://prntscr.com/n984pp>

me testing them

> <http://prntscr.com/n968c2>

edit: dude is really immature, calls me an idiot lol

edit2 : after waiting 72+ hours he tells me to use an option which I did

when I used it I ended up with dead proxies but now hes telling me I've been having these proxies

when I clearly tested after purchasing them

Heres what he said: <http://prntscr.com/n983jb>

All proxies work, and you already spent money on-site if you did deposit money.

You're not showing me any screenshots on site.

Plus, I asked for your order id, but you're very defiant and not cooperating.

Also, the Bitcoin address I sent you, you never sent \$11 to it. So I don't know what the hell you're on about.

First of all, I just got back on my computer.

1. I spent only .20c if anything
2. check all my replies to your thread, I showed screen shots when I initiated my first purchase lol.
3. I will give you a order ID trying to find it right now. Such great customer service from this guy! ?

calls me an idiot and now is lying? hes mad over \$11 lol

Hang on let me add some more information.

User is acting like a complete and utter child, I can't be bothered to deal with this.

He said I took more than 72 hours to respond to him, WRONG.

<https://hackforums.net/showthread.php?tid=5940559&page=4>

You can clearly see on that page I replied on the same day. SO, invalid.

You said you tried all 4 options, you clearly didn't. Because if you read what I said #2 proxy service is not working at the moment, and #1 is. And I can generate proxies instantly with it. You must've checked the proxies WAY after you purchased them because all proxies are checked upon purchase. Once again, invalid.

Also, please send me an ORDER #, I can't verify a thing until you send me it.

And also if you did deposit on site, it tells you to keep the order # just in case.

OH, and with the contract. You disputed a fake contract.

\$11 was never sent to 1H2ebec8Yuma2X1zhZWMMQvhtArM3BMXMo

I have no record of you, and for me to process a refund on-site I need the order # so I can check with my merchant.

Other than, don't bombard me with refund messages saying I'm a scammer, and my proxies don't work.

THIS WHOLE THREAD IS BULLSHIT.

You really seem to contradict yourself so much in this dispute. It makes me question how valid this is.

You complain he cares so much about this \$11 but yet you are the one going on, and on, complaining about the \$11 where as he never brings it up. Seems you are all over the place with this.

Well for one the service never worked. If you own a business its only right to give the customer a refund cause none of your shit doesn't work but obviously you wouldn't know anything about that.

I guess i wont receive my \$11; I got scammed and now your trying to back up a scammer lol.

edit; am I really in the wrong for wanting to get my money back because none of the things he listed actually worked? lol

You know, he does kind of have a point though. Every page on your post activity has at least 3 posts that are under 25 characters which is not allowed? And then majority are under 50 characters which is frankly very LQ.

But regardless of you being LQ or HQ member, at the end of the day you have not presented a valid dispute against this member in my opinion. Your proof is not substantial, I am not "supporting a scammer". You think anybody who does not agree with you is thus supporting a scammer?

At this point it is hard to say you even been scammed, considering you have not shown any proof of transaction.

Regardless of your financial state, let's look at the facts. The contract itself has an address to send the BTC to...you showed proof of payment which is to a completely different BTC address ? Always check your address before you send..

Provide TXID or proof of transaction otherwise you have proven to us that you sent BTC to yourself or a friend, and accused him of stealing it. That is just as probable as your story you have constructed over here..

You need to follow the contract policy if you want your dispute to be seen as valid, you need to.

You did not follow the contract policy. Simple as that.

You are disputing a contract for a purchase that was made off-site and had nothing to do with this contract.

I suggest you to read the [Help Docs](#) as well read the contract policy.

Yes because anybody who disagrees with you for breaking the rules must be friends with the defendant. Grow up, you are acting very childish. I have no relations to the user 6ix and frankly no reason to even use such a service. \$11 is some broke boi change to me

My first reaction was why would someone scam for \$11 but then again I have seen people who scammed for \$5
It'd be advisable to the seller - you won't get poorer by returning this person \$11 nor will this guy get richer by it.

We all make mistakes sometimes but it takes guts to admit it upfront and make amends for it. Whatever the case may be, please try & settle this amicably.
