Thread: [Looking for serious person who can write simple forum posts daily](#)

Bulma - April 9, 2019, 6:06 am

Hello,

I am busy with other stuff, so I want to outsource this job.

I have an account at warriorforum and I want to increase my post count, also I have link in signature so forum posts will give some traffic to the offer.

In other words, I just need 20-30 new posts in warrior forum each day.

Paying \$0.2 per post. It's very easy job for making some money.

Warrior forum have some requirements and rules, such posts like 'thank you' or similar low quality short text could be deleted and if it happens often the account could get ban. Also some sections don't count post number.

So please contact me only serious person who could write posts daily and follow some rules.

You need to post in sections:

Main Internet Marketing Discussion Forum

Search Engine Optimization

Ad Networks (CPM/CPL, Display)

Pay Per Click/Search Engine Marketing (PPC/SEM)

Email Marketing

Social Media

Copywriting

eCommerce Sites, Wholesaling & Drop Shipping

So if you have some experience in these niches it's even better.

Paying with btc. I will make a payment second day after you posted all the posts and will count how many you made and how many was deleted by moderator.

Hit me up so we can talk in details. Easy \$10-\$20 per day.
