Im selling an online store script coded in php using Yii Framework. Very secure and great features.

The price is \$1200 Bitcoin for 1 sale

or i will sell 2 copies at \$750 each

This script can be used for :

Sales of accounts (all kinds)

Sales of Virtual cards

can be adapted to suit sale needs

Please contact me for more information and demo to see functionality.

This site will require CSS for rebranding

All MYSQL tables etc included, Very secure and complex script

[contract=tid]Start Contract[/contract]

Shop looks great, little overkill for my purposes so won't be purchasing but is definitely a good purchase for someone who needs something like this

Thank you much appreciated.

Its not what this user was looking for, Much too advanced, Which i respect.

Any other interest please contact me.

Can you post a couple screenshots, censor them if needed to avoid people asking for proof

I cannot do that as the current functional script is running blackhat system, Which is not allowed on HF
