Koje Cryrpto Arbitrage Signals

Hi Im offering access to my private Telegram channel which gives Cryptocurrency Arbitrage opportunity signals.

This is a private Telegram channel that offers Cryptocurrency Arbitrage opportunities Signals. It offers a Broad range of opportunities and platforms with the the ability of making ROI in a day.

Currently in Beta mode and will be improved to include more exchanges.

Q) What is Cryptocurrency Arbitrage ?

A) The ability to take advantage of price discrepancies across Cryptocurrency exchanges whereby you buy low and sell high.

Q) Do you need any private information like API keys .

A) No you need to execute your trades manually.

Q) Are the exchanges verified ?

A) You would have to manually do your due diligence before doing trades on any of these exchange platforms.

Q) Where do I get updates ?

A) You will receive a private invitation to the channel.

Q) How regularly do signal updates come in ?

A) You will receive updates via the Telegram channel on average per hour.

Q) What sort of payments you accept.

A)Currently accepts Bitcoin and Litecoin at the moment.

Q) How much does it cost ?

A) \$20 per month, which is pretty cheap as compared to other services.

Q) Any Review Copies available.

A) Off course, will offer 5 review copies to reputable members of my choice.

[Contract](#)

Any questions please do ask.

If you need a personal cryptocurrency trading bot coded drop me a PM with your skype or Telegram handle
