Here's my feedback:

Electrode is a knowledgeable dude, with a sales-approach on e-whoring that instantly makes it easier to qualify buyers, weed out time wasters, and overcome objections.

It's nothing ground-breaking, but I've already made my money back + some.

The best part about it all is that the buyers can be milked for more money down the line.

I look forward to the eBook version, I really hope you add in the part about milking/upsells mate.

All in all though it's great and would recommend it.

*Update: feel inclined to let you all know I've made \$290 within 7 days of using this method. Great stuff.

I don't have a forum. Most methods for traffic I use are nothing new but I give you a way to convert saturated traffic. I am also able to record you my sales to prove it works.

Thanks for the honest review. One more review copy up for grabs for 50% off. In order to claim you need to post an honest review of the method afterwards.

I agree snapchat is a very profitable way to eWhore and my guide is based solely on Snapchat. But there is plenty of other very good ways to eWhore.

This got more attention than I expected. My time is limited thus copies will increase in price as more slots get filled as I offer full on voice support and training to get you on the right track.

So far 3 copies sold so get them while the price is good.

Best of luck!

Electrode has been a very active member on this sub-forum for quite some time, so I will say his methods have been good and no doubt his premium methods will be better.

However, you say you have one slot for \$69 and then advertise the price as \$99 which one is open?

Thank you for the kind words. I have updated the thread for it to be less confusing. 1 slot left for 69\$ 2 slots for 89\$.

redbaron - April 26, 2019, 9:44 am

I was on a mentoring call with electrode and another member.

I tried different mentoring programs so I got some comparison and this was by far the most in depth.

He was asking us questions to find out at which points we are in our ew career.

And because me and the other guy were at different points he adapted his style of teaching so everyone got the info that he needed.

But he started from the basics to more advance techniques.

The only part where it is lacking a little was traffic techniques, it is very focused on selling and how to make the most out of a person.

I have to say he has a very unique selling point and is very fluent in his style of approaching the customer.

So you are ready to sell to everyone and adapt along the conversation.

I liked that his techniques would also work very good with small packs cause you aren't burning your pack in a short time.

So far he was super friendly, helpful and really took his time to make sure that he answers all question in detail.

Which was key for me.

That he was really making an effort to get you making money and helping you.

No matter how unclear something was, he explained it until you got the point.

He asked us for an unbiased honest review which he is getting now.

Straight up solid guy, I am happy with my investment ?

SIM-3142817 - April 29, 2019, 6:21 pm

I have a question about the full mentorship guide and the late copy version, what is the real difference between the two? Also for the 1 on 1 Voice Mentorship Sessions teaching us how to sell on Snapchat, is it possible to just get the mentorship on skype and such instead of talking on the phone ? i'm in a certain situation as to where the voice 1 on 1 would not be a good option for me... I'm very interested in this and definitely willing to take action asap after purchasing.

Late edition is when my time is limited as I make sure to aid all customers when needed and tend to take time sometimes. Also have a job so my time is limited

And the one on one mentoring is over Skype by default. I dobt rly do phone to phone

Worth the investment!

Thanks for the feedback. I left the price at 49\$ since I had time. It's gonna increase tommorow. Stay tuned for new pricing.

Joy - May 2, 2019, 1:50 pm

Here's my review for the mentoring service. I received a vouch copy for \$49.

I am a total noob at ewhoring and Electrode taught me everything from the start to the end of ewhoring.

He showed me how to proceed with the method and what not to do. I was mentored with another person in the call and he was a bit experienced and it helped me a bit listening to all the queries he had. I had hella lot of questions and OP answered each and every one of them. He will literally teach you from scratch. The old part which the mentoring might lack would be the traffic sources.

I have already earned \$100 with 2 days of ewhoring. I know its not much but i didn't put much effort in it because of exams.

Thanks alot Electrode.

Electrode - May 8, 2019, 1:55 pm

I would be pretty ashamed of myself if you only made 10\$ per day with this. Making 30-40\$ per day would be more than realistic. Most of my students are able to get 50-100\$ a day if they put in the work.

Interested. I am already doing Snapchat (not ewhoring) and I'm bringing decent traffic every day via IG and I'm also interested in what you have to say in your guide. Hit me up with your discord / Skype. Cheers

Lawes8 - August 31, 2019, 4:28 am

My vouch 11 days later after i purchased it.

We did a discord session on the day of the purchase, can't say i have learned anything new. After that he dissaperead, won't event answer to my messages. He told me that we'll do as many sessions as i need to and i'll have 24/7 support from him, but he won't answer 10 days in a row. I understand that he might be busy, we all have our personal lives and problems, but i paid 150\$ for this, he could have at least the decency to inform me that he'll be off for a few days. Asked for a refund, let's see what happens.

ningjingdexiatian - August 31, 2019, 4:32 am

How's your availability like for the next 1-2 weeks? I have some time on my hands and would love to be mentored!

Samroth1 - September 5, 2019, 2:14 pm

Just had my session with Electrode, he was extremely informative and answered all of my questions. Would recommend the guide and believe I won't have trouble earning from this!

Depends on the time you put into it. First month gonna be slower until you set it up but if you put decent time I guess 1000-2000\$ first month then 2x/3x that going in the following months depending on the time you put into it.

works for newbies?

Also, does it involve talking to people?

Any additional investments?

Newbies are fine. I get you started from scratch.

Yes you always have to talk to people in this biz at least to an extent.

No additional investments necessary. You can invest in tools that will boost your earnings but it's not required and you can get those with your profits later on.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

why did you mark the dispute resolved then

vatrenilav - January 21, 2020, 1:12 pm

He contacted me on 4 thbjanuary, i have whole conversation on discord. He gave some tips and a pack and he apologized for being inactive in december . He asked me to mark as resolved but i never said i got tutorial which i did not

And spiral. You know me. I bought your tutorial too. You gave me it the same day, i said thanks and go on. And your tutorial is great, and we didn't have any problems. Why do you think i lie now?

And one more thing, when i was buying this method, he was replying. Almost instantly, (like within 30 minutes)
