Thread: [\[Official\] Sui Generis - Arts recruitment - All arts welcome, all artists welcome.](#)

scam. - April 12, 2019, 4:40 pm

Sui Generis is reopening. If you were a member during the open recruitment you will have been removed. Feel free to apply again.

Sui Generis is a group for all artists, from musicians to cave painters. Previously we focused on users that were slightly more advanced in their field but now we will be catering to all skill levels so don't be afraid of applying if you're a beginner. Ultimately this group is a place to share your knowledge and help other users pursue their interests.

The recruitment process is one of the simplest you will find. All you got to do is post some of your work. Wether it be a soundcloud link, a design portfolio, or a picture of some pottery you've done, we want to see it.

I'm not going to be too strict on recruitment so do not be afraid to show your work. If you don't want to post publicly feel free to PM me.

hello i would like to apply

my application is my profile picture. it might look like a meme, but I actually put effort and I like it

Soulmate~?? - April 12, 2019, 6:12 pm

If you are serious about your craft this is the group for you, good luck to people applying

Mix - April 12, 2019, 7:21 pm

Hello scam, I am here to apply once again to Sui Generis.

I joined HF to learn about graphics at a young age I was making pixel art in MC paint, I never really got far with it but I enjoyed what I did and made.

I slowly grew up as everyone did and learnt a lot about programs that are used for making GFX and came across many different programs that were a lot better than MC paint back in the early days. I then started making graphics for youtube, now I must admit its not my best work but it shows I was getting a lot better at what I was doing with my experience, Now to this day I am making my own logos with almost custom everything I am using photoshop and mainly everything Adobe. I hope to be soon making a GFX store within HF but I am still making the thread design right now. I have been making a few signatures around HF from recent to the past and even made a few threads showing people how to use photoshop.

If you would like to see more work from me other than my current Profile pic or you know my old logo then contact me and I can show you some.

Thanks!

My art is still very much a work in progress, but I've set up an Instagram account for [my photography](#). I also have an old Photobucket account for [my old graphic designing](#) portfolio. I have a newer portfolio on ImgBB for [my newer graphic designing](#) portfolio. I'm nowhere near the level of a lot of the artists on here, but I'm always trying to learn! I'd love to be in this group for that. Thank you.

Joy - April 26, 2019, 6:22 am

I used to make GFX here earlier but i lost pictures of my work.

Here are some handmade drawings i drew:

Hi, I'd love to apply for this group :) I'm a music producer, mainly into hip hop/trip hop sort of stuff, although I also like producing Drum and Bass, and more experimental electronic stuff. Here is a short chill kind of beat I made entitled Dreams, I hope you like it and would consider me for a position in the group, thank you! ?

Heres another one, again quite a chill sort of vibe:

My portfolio tends to be all over the place as it consists of work related to engineering, art, music composing and whatnot.

Would I be denied if I don't post anything? There's going to be a lot of digging requiring...

You have to at least give us something, the group is pretty chill and doesn't really require a lot of work once you get in but we need you to show us what you do first
