PLATINUM Package will include a tool that does almost all the work for you

GOLD Package will also include a extra list which will help you a lot

GOLD tool last updated on: 20-4-2019

Extra info + FAQ:

Spoiler [\(Click to View\)](#)

There are 2 ebooks included in the platinum package:

- The first ebook contains a method that can earn you a lot of money.

This method requires a bit of research (simply googling, no setting up complicated stuff etc).

This method is for the people that want to put in a bit of work (hour a day) for a lot of profit.

This is a SHORT TERM method.

- The second ebook contains a method that can earn you 15 - 20 percent on your investment monthly.

This method only requires you to do a little bit of work, almost close to none.

It's a "get and forget" method, my tool does all the hard work for you.

This is a LONG term method.

F.A.Q:

Does this work worldwide?

- Yes it does, the second method might require you to setup some things for it.

Is this legal?

- Yes, both methods are completely legal.

How much can I earn with this?

- The first method allows you to earn a LOT of money, possibly 100's a day depending on the investment.

- The second method allows you to earn a steady 10 to 20 percent profit.

Is there payment proof?

- Yes there is, but I don't ask customers for payment proof, I only included proof that was offered to me by a user.

- You can find this in the payment-proof channel.

Do you offer support?

- Yes, my support is premium, I will literally hold your hand until you make money.

Is there a community?

- Yes, we have a very active community in this discord (you need to be ranked to see it), over 80+ users who help each other.

How quick can I earn?

- With the first method you can earn within a few days.

- With the second method you can earn in a month.

What payments do you agree?

- BTC, LTC, ETH, and Paypal

Refund policy for platinum users:

Spoiler ([Click to View](#))

- If you didn't make profit after 3 investments, I'll give you a full refund.

- You have to PM me after a failed investment so that I can help you to succeed, I will always prioritize helping you making money over giving a refund.

- IF it so happens that you really didn't make money after 3 investments (won't happen, I'll literally hold your hand and if you follow my tool you won't), the refund is granted.

- I have full rights to change the terms of this policy at any time I want.

- If you charge back your payment you will get banned from the method/tool + you won't get a refund.

Sells a copy for \$20.

It's in steps, you wont turn the \$10 into \$1000 directly.

From 10 you go to 100, from 100 to 1000, etc.

Interested in this but would be nice if you give a vouch copy to a honest member. So prospective buyers can make a decision. Also the cash out will be in crypto, paypal or what? Does it involve selling, reselling and also talking to people? Is the earning and payout daily? Looking forward to your reply.

It's a u unique method.

It's hard to explain, but it's legal, it's litteraly less then 30 minutes a day, and it's easy as fuck.

I'll try to come up with some hints or something, but like I said it's a unique method, if you read it you will understand what I mean.

I have some questions regarding this. Since my account is registered today, I am not able to PM you.

First off; Do you have any customers coming from Denmark? (I'm asking this because I'm a little worried if this actually generates \$1000,- a month, how do they avoid taxes ?)

Secondly; Would you be able to offer a full refund in case this method for some reason does not work?

Third and last; Would it be possible for me to have a chat with you on discord? (First post ever, so I am not sure that I can receive PM's as I can not send them).

There are some vouches on the front page.

I can't ask for my customers to respond to this thread, they bought the method and shouldn't be bothered by aiding me with my sales.

I'll ask the other customers tho!

So you are saying you have a method you can make thousands and you sell it for some dollars ? Not even for some hundreads dollars ? And why to sell a private unique method when you can improve it and make more and more ? If i had my own method i would never sell it to anyone if i could make thousands ...that's not make any sense.

Because I pay my own scholarship, my own house, my own groceries and all my bills.

I do use my own method, and I do make some nice profit from it that allows me not to have job besides going to school (which is such a relief), but more is always better.

This is a method that cant be saturated.

I would even go as far to argue that the more people that use it the better.

so123random - May 1, 2019, 6:29 am

Feedback: I just received the method and read through it. It's not a super unsaturated method because I already know some people who do almost the same thing. It will work though. \$10 minimum investment is not a lie but it is pretty unrealistic. In my opinion you'll need at least \$50-200 investment to make a noticeable profit.

Do I recommend it?

If you have no idea how to make money or if you have some spare money for a tutorial then yes.

The trade itself went smooth and I can definitely recommend Timo if you want to trade with him

I have bought several methods here at HF and some of them have been very good, some that I still profit from and others that worked for some time.

I bought this method and honestly it did not meet my expectations, it is risky and there is no 100% guarantee that the investment is recovered, another important thing is that this takes time, it is money that will be stuck for some time, I do not say it does not work at all , but it takes investment

and time is honestly not worth it.

I bought this method and honestly it did not meet my expectations, it is risky and there is no 100% guarantee that the investment is recovered, another important thing is that this takes time, it is money that will be stuck for some time, I do not say it does not work at all, but it takes investment and time is honestly not worth it.

You mean this method? Why not making refund? Try and see seller reactions

Interested in this but would be nice if you give a vouch copy to a honest member. So prospective buyers can make a decision. Also the cash out will be in crypto, paypal or what? Does it involve selling, reselling and also talking to people? Is the earning and payout daily? Looking forward to your reply.
