I can assure you this method will not be saturated anytime soon. This method is confirmed to be working worldwide. If for some reason you are unable to execute or earn from the method, I have no problem giving you a full refund.

So far he isn't telling me the method..

Edit:
Review

This is in my opinion garbage, the seller wants to do all the talking in snapchat which is annoying as hell.

The method uses a website only he can access so you will need constant service/help of him to get adds. The other method is using shoutouts which isn't a "private Snapchat Traffic method" at all, sure he gives you instructions where to get good shoutouts but this isn't at all what I expected.

I am very dissatisfied and the seller refuses to give a refund.

He should give a better overview on what to expect before selling and construct some kind of pdf which clearly explains all at once what his methods are once bought.

I feel sorry for the amount invested.

You could have checked the vouches before purchasing.

Why are you posting in such an old thread. Now you are only bringing it back to the top. Your comment has no value except for telling me things I already know.

1. I was looking for something similar and found this thread.
2. I didn't check the date, I don't check dates before posting on forum.
3. I know it was none of my business on what you do, if you think it didn't add value, don't try to do the same replying to mine lol.
