You can PM me if you get your account back for my BTC address for the \$5.00

Here's what you do:

- 1 - Logout of your "friend's" account
- 2 - <https://hackforums.net/contact.php>
- 3 - Explain situation
- 4 - Don't be an idiot again?

VoIPv2 - April 14, 2019, 10:21 am

@OP you should use: <https://hackforums.net/contact.php> your friends account might get banned because you can't account share lol.

Edit wow 3 people sent the same message in a row...

By using your friends account you're both risking

Both accounts being closed now.

Nice move.

This is all you need: <https://hackforums.net/contact.php>

You don't have to create a thread like this. You can just use that link above to contact hackforums and you can get your account back. gl!

Close this thread before Omni or other staff see this thread. You're violating HF policy by using other HF account.

Logout and pretend nothing happens.

One: not a upgraded member huh they upgraded the account since yesterday. (Disregard)

Two: Omni/staff most likely have seen this thread, and probably will be closed tomorrow if it hasn't died.

tim - April 16, 2019, 12:53 am

Man you seem like a nice dude.

But for fucks sake close the thread and be patient and do what others have said. Would hate to see you get closed just for this, even though it's kinda blatantly breaking the rules, but I assume you're just clueless as fuck.

Hopefully you get spared haha, but for real.
