Thread: [Shield Crypter 2019 \[.NET/Native | Runtime/Scantime | Autobuy | FUD \] Made in Germany](#)

Shield Crypter - April 14, 2019, 1:28 pm

[Shield Crypter - Lifetime License - 35\\$](#)

FAQ:

Spoiler ([Click to View](#))

1)In which language is this written?

Visual Basic. Stub is compiled in .Net v2.0

2)Does it support BlaBlaRat?

If it is native, then yes.

3)Can I use this for crypting service?

If you tweak the stub, then yes.

4)Can you help me with BlaBlaBla?

If I have time and you ask nicely. :)

Shield Crypter users, PM me to ask for new features and to keep posted on the future updates!

Bartol - April 14, 2019, 2:15 pm

This looks amazing.

Good luck with sales.

This is like cheapest crypter ever...

SIM-3132187 - April 14, 2019, 2:23 pm

I will end up creating a thread "How not to get scammed"...

Athenas8520 - April 16, 2019, 7:28 am

Its working good? Have regular actualization?

AbsoluteVoid - April 16, 2019, 9:41 am

so let me get this, you provide the source code to this program. so how does updates and keeping this fud work?

any trial or something to try out?

OfficialLemon - April 16, 2019, 11:53 am

(Apr 16, 2019 10:59 AM)n0\$f3ratu\$ Wrote: [\[CITE\]](#) AVOID the seller and what he is selling.

Just a piece of advice... or you will regret it!.

This is the third or forth thread opened selling a shitty source.

Is he selling a public source?

Do you have it?

The source provided is not FUD correct?

SIM-3132187 - April 24, 2019, 10:35 am

(Apr 24, 2019 08:33 AM)Vanilla Wrote: [\[CITE\]](#) The source provided is not FUD correct?

The source provided is stolen without give any credits and not FUD.

Vanilla - April 24, 2019, 10:38 am

So... if this is such a scam then why does this dude have a vendor role and his scam thread is still going? Isn't there staff for a reason?

Yes he is. But I think HF admin don't consider it as scam.

naxster - May 19, 2019, 12:06 pm

He has been doing this since 2017... I was actually intrested to buy this crypter, but since he NEVER replies to anyone, only spams picture, i didn't buy this crypter...

Haha he is , but source got leaked anyway.
Was on this thread :-)

Made in Germany , is ja peinlich man

raghavsood999 - November 6, 2019, 4:19 pm

Hi Shield Crypter Developer,

Prior to purchase i want to ask the following questions:

Does Shield Crypter Support the following:

1. UAC Bypass without UAC Prompt or User Privileged Prompt?

2. Can it bypass Windows Defender and Smart Screen?
3. Is it a run time and scan time crypter?
4. Do you provide private or personal stub?
5. Can you add a p2p spreader and a usb auto spreader but with new .ink method not old autorun method. The new one is the shortcut on desktop method but make hide shortcut on desktop available - this spreader option is optional for your crypter. I only say it because in the post for your crypter you mention that users can PM you or comment on your post for improvements and what they want the crypter to have. You don't have to add a spreader. It's just a feature some people would like to have and would make shield crypter a nice crypter.
