Is it possible to stack or purchase it again before it runs out? Or do you have to wait till it runs out so you can buy it again?

Are you talking about the subscription? I'll discuss with Xerotic with how it's setup to renew.

Also i think a way to tell how many days left or how much time left on your sub would be cool .

I was wondering the same thing. I know I'm going to want to stay Uber. I would love to be able to purchase x amount of years at once.

Yes I'd like to have it auto renew or something like that. Or just be able to buy it/stack it. idk
