Thread: [Skype Messenger](#)

SMMnet - April 15, 2019, 9:35 am

Hey there,

I am sure there might be some threads that already explain this, but this is my first thread and I would like to contribute to this forum as much as I can!

Question:

Is there some I can pay to send messages promoting my company on Skype? I do not want to do the dirty work, I need someone else to do it for me! Please let me know, and if not in the correct section I am sorry as I am learning this forum day by day.

Thanks,
SMMnet

There are modders out there who accept payments for promoting your product, try that.

No, I have heard of tools that people have, just would rather pay someone to do it for me.

Thanks though
