Thread: [\[Looking\] Most popular services Icon Pack?](#)

Xingularity - April 15, 2019, 1:16 pm

Hey!

I am looking for an icon pack, which contains the most popular service icons.
Here are some examples, which should be contained there:

- Paypal, and other popular payment platforms;
- Crypto Payment & Exchange Platforms;
- Popular Socials;
- Steam, Amazon, Popular Banks, Skype, etc etc.

Could not find any good one, which would contain all of them.
Thank you for the help in advance.

Have you tried purchasing an icon pack that contains them? If not, it isn't too hard to create the icons yourself. ?
