Thread: [2 COOL METHODS FOR MAKING PROFITS WITH YOUR INVESTMENT](#)

Moskov - April 15, 2019, 4:20 pm

Ever wanted to make some easy money without much effort?

You've came to the right place. I will show you 2 methods which bring me some income based on my investment

For the first method you must have 10\$ to invest (this is the min and max investment) - method can easily make you over 50\$ daily if you run it several times

For method 2 you will have to put a little bit more work but it's easy task. With a decent bank this method can earn you a lot daily

35\$ BTC/ETH for both

20\$ Each

I'd like a vouch copy of each of these methods; I'll write a review in return.

If I see a solid vouch I will consider this. Or if you send me it and it works I will send you payment and review the product.

We messaged regarding the Vouch Copy; He said "no", as he "has vouches in another thread", upon reviewing said vouches, the method is basically signing up for a gambling site with a sign-up bonus and getting lucky...

review his previous threads for more information.

1 of the methods - the \$10 one is gambling related

The other has nothing to do with anything from the above

Any vouch copies to be had?

Steam - April 16, 2019, 12:32 pm

Any earnings proof of the gambling method?

EDIT & WARNING!

I received this PM from OP:

The screenshot shows Fake proof of earnings.

Why fake you may ask?

You see 4 transaction.

1. 04/04/19 (6:32 PM) - \$25.53
2. 04/03/19 (5:34 PM) - \$203.19
3. 04/03/19 (5:11 PM) - \$303.50
4. 04/03/19 (6:11 PM) - \$121.02

If these proof of earnings were real then the transactions would be organised on Date and Time properly.

However if you look at Transaction 2, 3 and 4 you see that dates are not organised the way Blockchain usually does it.

How it could be if these earnings were real is.

Transaction 1.

Transaction 3.

Transaction 2.

Transaction 4.

This is solid proof that the screenshot sent by OP is 100% fake.
