Honest review:

Contacted Herbert to have a video made for my website. Told him what I wanted and he delivered what I expected and even more. Gave some tips and all of that.

It took some time to get made because he had some life issues but its fine, he dont got them anymore and will do your work in few days.

For the time he took made me an extra work for free, i appreciate it.

Apart of the business, a good guy, spent a lot of time talking with him about life things. whatever, I recommend his services to anyone. will come back soon for another video.
