User messaged me telling he had a visa gift card with \$1000 in it. He said i can pay beforehand \$450 and the rest after i get the card. He stayed awake the whole night and responded within seconds when i was making the payment, Once the payment was done. He started making excuses about how he needed to call the support and everything to unlock the card. He didn't provide any account details to login and check the balance.

It breaks my heart right now, I had a lovely vacation planned and intended to use this gift card to buy a flight. Not sure what to do now, I need the gift card once he's back or a full refund.

Denizz, if you're reading this. Respond please.

Wow that's bad. It would be stupid of him to scam when thinking about the amount he has donated.

That's why you always use a middleman.

I wanted to get the trade done immediately. he seemed to be reputable, and plus he already sold me some ebook rights before. This was not expected.

The money's still in his bitcoin wallet. Not transferred anywhere, which leads me to believe he may have went offline. Not sure though

very sad, although he did have another open dispute

Oh gee, too bad we don't have a rule that says no prepaid card activity. Oh wait,

Quote:Virtual Credit Cards (VCC), Prepaid Credit/Debit Cards and Virtual Bank Accounts (VBA)
We understand that there might be a valid purpose and use for these discussions, but we've decided to remove them from HF in an effort to stay on a more legitimate topic level.

???

There is a reason, multiple reasons, why you can't trade those here....

This is a visa gift card though. Not entirely classified as a credit card mr.moderator.

Oh, I saw people buying VISA gift cards in currency exchange and figured out it was allowed. Sorry for that

Denizz just came online and read the contract dispute, but keeps ignoring. Hope the mods take some action.

My friend, I sent you the visa giftcard details. What's wrong?

First of all. You agreed to send pay2d login details. Which you never sent. You vanished and never replied

Second. You gave me some BS card which never even worked

Third. You don't have a fucking conscience. Fuck the money. Hope you get arrested. You waited the whole fucking night for me to make the payment. And then you vanished with nothing.

Here's what I want. I need the card login details. If not. I need a refund. Reply to my pms bitch

Yeah. I'll rather use middleman for every trade on HF

Thank God. Another guy called suboptimal approached me. I saw he had a lot of username changes. Turns out he's a scammer too

It's surprising denizz hasn't been banned even though he has two disputes under his belt
