Sent you the account.

UPDATE: OP provided the login details of a Miniclip account, lower level but with a 77% win rate. The account contains 105m coins, 5m more than OP promised, which is a nice bonus. I just finished playing my 3rd game on that account, no ban or any issues from Miniclip. All in all, OP is one of the best coins sellers I've had the pleasure of working with. Thank you and GLWS!
