Thread: [EUW player trying to climb, need duo partner!](#)

BigSeller18 - April 17, 2019, 1:52 am

I started in S9, in fact it's been like 2 months now and I have been maining top lane with tryndamere, trying to learn Jax and a few other top laners. I played bits of ADC with tristana. Right now I've been having troll games so dropped from almost being S2 to S4, grinding back up now as I've been playing ranked for like just under 2 weeks I think. I should hit gold soon I reckon, just want a duo partner to learn with etc.

I want to rank up fast, so if you're a decent jgler, then communication is easier for potential gank setups, baits etc...

I'm getting to grips with game knowledge, it is my first MOBA that I have played on but my aim is to hit plat by the end of the year.
