Thread: [Niche Email list \(Cleaned and Verified\)](#)

Nopee - April 17, 2019, 2:55 am

I will be selling a personal email list that has been used for sending B2C & B2B offers. I only have US Emails as all of the campaign done for US offers.

List of Niche emails I have.
Payday loan emails

Finance (Insurance/Tax)

Education

This emails have been cleaned and verified through briteverify. Emails that are collected are DOI (double opt.in). All emails are collected through various social media ad campaigns. List age is 7 months and list is being cleaned up monthly by briteverify last purging was in april 2.

Click rate guaranteed 30-45% depending on the offer

Conversion rate is at 2-6%

Open rate is 60-70%

Here are the stats for conversions from my affiliate networks.

For the price.

Emails are close to a million and would only sell them 1 buyer. As I want to keep the quality of the list.

[contract=tid]Start Contract[/contract]

Oh yeah.
I forgot.

RFS - Although these are high quality list. But the cost for even setting up an smtp server or sending a successful campaign is very tedious and expensive. In which profit is not that high. I was using amazon ses + sendy for sending out the campaigns but since the crack down with the accounts and getting hard to open up regions. We gave up.

So if anyone of you have high quality email servers then it's your chance to use this.

Price of email :

60\$ - 100k

150\$ - 300k

260\$ - 500K

All emails will be sold 1 per customer. You can check my contracts and updates on thread.

Added bonus in which If you're an email marketer and wanted to get the best bang for your buck and to maximize your conversion. I can help you setting up a campaign and pick an offer that will convert best for free.

I only have US man.

Sorry bout that.

Bump.

1 Sold.

Will not be reselling to other people. You will be getting unique list.
