Thread: [Spreading Sites| Fortnite, CSGO & PUBG Hacks + More Soon | Deploy In Mins | Customize](#)

JasperRed - April 17, 2019, 4:48 am

My partner was originally selling my product but is no longer here. I am re-opening sales of this product, you can purchase using the same rocktr link found in this and the old thread. Original thread had tons of sales and vouches, old thread link:

This is a spreading site MULTI-PACK. Read the FAQ if you are unsure what it is. One single purchase will include all three sites; Fortnite Hacks, PUBG Hacks and CSGO Hacks + More coming soon for free addons!

DONT ASK ME WHAT THIS IS. CLICK THE LIVE PREVIEW

FAQ / What is this:

Spoiler [\(Click to View\)](#)

What is this: This is a website you can use to spread your software to users. The user who visits the site understands that they are download a .exe which will be hacks for their desired game. You may change what .exe is downloaded to the users computer so you can spread your payload.

Can i change the content: We have a very easy to use configuration file which is documented with comments and a readme.txt - you can customize almost everything

Does this include any hack or payloads: No

How long will it take to setup: Minutes, it is very easy and non technical

Will you help us if stuck: Yes, i am here to answer questions to help you get setup
