Make One Of The Most Passive Income You Can Get
With My Mentoring And Knowledge In Youtube CPA

You have probably heard of passive income, actually, that's what people mostly advertise as "autopilot", "make money while sleeping" and all other get rich quick schemes but then fast you realize that these methods aren't actually that passive at all.

Usually, they are hard to execute or just plain annoying to do but the case is different with YouTube CPA because once you follow the guide and do just a few things or even get someone else to make that for you, then you can just wait for the money come in and the best part about this method is that it is literally copy paste method and you can rinse and repeat to make HUGE income actually while you sleep.

YouTube CPA idea alone will not take you too far at least not that fast, I have tried probably all the methods there is and found out what actually works and what doesn't and you can skip this annoying and expensive process with my mentoring and ebook which has 32 pages of information that you can use to make your youtube CPA career a success!

What You Get

1 on 1 mentoring from me which will guarantee your success and you will be on track all the time to make the best profits.

Discover what works and what doesn't when it comes to making money on YouTube

Ebook which has 32 pages of quality content! You could even call it the bible of YouTube CPA and it has everything you will ever need.

Moneyback guarantee! To make this even better offer than it is already I'm personally going to offer 100% moneyback guarantee if you don't succeed.

Price

1st copy: \$100
2nd copy: \$150
3rd copy: \$200
4th copy: \$200
5th copy: \$200

Earning Proof

Here are some of my referrals that I've been mentoring for 4 months back.

Spoiler ([Click to View](#))

Q&A

Q: Is this a unique CPA method that nobody does?

A: It is not, but there are tons of unique things that make the method work.

Q: Can this get saturated?

A: To a certain point, but it will always work.

Q: Does it require any investment?

A: It is recommended to invest minimum of \$30 to make it work as it should.

Q: How much can I earn with this method?

A: It is not a magic method, harder you work the more you can earn, from \$30 to \$500 per day.

Q: Is there a refund if the method doesn't work?

A: Because I know that method works flawlessly, I offer a full refund if you can't make your money back within one month of work.

Q: Why is it so expensive?

A: In my opinion, it is not expensive at all, with some work, you can reach \$100+ or even more per day in less than two weeks.

Q: What comes with the method?

A: 32 pages long ebook that I have written also 1 on 1 support until you get used to the method and can do it on your own.

Q: Does it require any knowledge?

A: Some CPA knowledge would be helpful, if you don't have any, you will just need to have more time getting into it and let me explain you all.

Q: What are payment options?

A: Bitcoin or Ethereum only at the moment.

I have gotten mentored from him on this method, and have used and still using it. All I can say is, it will be worthy of investment and make you money unlike other trashy ebooks.

Thank you. This user is one of the users that I started to mentor a few months ago and he put some work into it and earned quite a lot.

As he says, it is worth the investment, it's just not click to earn, you have to put a little work and will into it and it's well worth it.

Also, I will not stop mentoring most likely, I still help him out, give him tips and we often talk to improve the method,
this is that kind of a mentoring where I teach you until you get x amount of earnings then stop, it's more like a long-term mentorship.

Peke - April 18, 2019, 11:24 am

I would also like to mention that this method and mentoring is suitable for people that are already in CPA.

I will cover things to increase the number of clicks, leads and how to get better conversion ratio as well.

Few tricks that are in the guide and mentoring itself usually cost more than \$100 so the first one to grab this will have a huge value for money.

However, with some research me and somebody else came with few tricks that delay the problem for some time.

Someone that I mentor bought views three days ago and he got them all delivered yesterday.

Not sure how long does it not work on other panels and not sure which type of views you want to order.

(Apr 21, 2019 03:22 PM)Watchman.-temp Wrote: [\[CITE\]](#) Interested, can you tell me how much is necessary to start, average monthly income, and how long it takes to receive profits?
To start, you need a minimum of \$30, but having \$50+ is much easier.
The more you will put in it, the more traffic you will have, the more earnings you will have.

Average monthly income depends on how much money and work you put into it.
I would say if you invest \$60 into it, an hour per day, your monthly average would be \$1000+.
But if you reinvest all the money to back in the method, you can easily go over \$5000+ per month after some time.

To receive profits, you would need to wait on average 5 days after you start.
When you put back money into the method, later on, you usually get the profit within 2 days.

First come, first serve, would not be fair to others.
Few are already interested in buying the next few days, but most likely it won't be sold out.

(Apr 22, 2019 02:53 PM)Redskins Wrote: [\[CITE\]](#) How much do YOU make? Care to show live proof? Is this SEO boosting videos on youtube?

With this method currently not that much, since I moved to other CPA methods.
I used to earn hundreds per day when I was working hard with it and now \$50-\$100 only, with little work for side earnings.
And yes, I will be willing to show and I already did to few that were interested. If anyone is really interested, with proof of funds, I'll show the earnings as well.
About the method itself, it is about the videos but can't tell more. But it is a unique method since you need to go through 32 pages and my help to do the method properly. Some may think that takes a lot of time, but it actually doesn't just lots of things that are important and unique to my method.

There are few that I mentor from a few months back.

I can't really vouch for my method, but everyone until now said that

You can always pay some extra and outsource this on site like Fiverr etc.

I can not guarantee you to rank #1 for any niche, because there is just too much competition in some niches,

but for most of the niches, you can easily rank top #3, but usually, I and my students get to #1 without problems.

I would need to know more information to know if you can rank #1 for keywords you have videos for.

Peke - April 25, 2019, 4:45 am

3 copies left, the price is increased to \$200 for the next copy.

For a 1 on 1 mentoring and the guide, this is still a very cheap price.

Also, take on mind that a refund is guaranteed if you don't earn the money back,

but usually, people get their money back in a few days after the money starts rolling in.

I will help you get accepted into CPA network, can help to build landing pages, writing proper YouTube description, the title for SEO, helping with using CPA network API if needed as well.

Mentorship is not just until you make your money back, but will last for a long time and will help you if you need anything.

I will also refund 100% of your money AND all the investment cost if you do not earn it back, that's how good this method is!

If you would check the thread you could see it offers much more.

The guide, just views are 1/4 of ranking effectiveness, with my guide, you outrank others that do the same.

The guide is 32 pages long with 5200+ words so I assure you it's not only viewbotting, it is a guide from zero to hero.

Also, I am here to mentor every day, most of the day and for as long as people want me to help (going for months with few students).
