Yep, don't do it. I did this in highschool, things got out of hand, ended up with a state wide expulsion and was facing jail time. Not worth it, trust me.

Focus on your education, it's your last year of essentially free education. Get ahead with CLEP testing so college costs less, and takes less time.

If you are smart you'll get away with it. 95% that do it though are not smart. Are you the 5%?
