Are you wanting to upgrade to L33T but don't have the correct currency to do so? That's where I come in! Fast, easy exchange where you don't have to worry about getting scammed.

6 month and permanent

Upgrade cost + \$5

Unverified PayPals +\$5 and 5%

Awards from the award market

Price of the service depends on what awards you're trying to buy

Keep in mind you will also have to reimburse for transfer fees

Unverified paypals not accepted for awards

-I reserve the right to decline service

-First to higher reputation otherwise you first

-Middleman fees will be paid by you

-Any holds on payment will have to be waited on to be accepted, then I will finish the service.

Any questions can be posted below

Do not PM me without posting below first

Just a friendly tip!

This can be confusing to new members:

Quote:-First to higher reputation otherwise you first Since reputation doesn't exist anymore and was replaced with Popularity which is basically useless now.

I advice you to change the "Reputation" to higher B-rating than yours.

Good luck with your sales buddy!
