Thread: [Thread removal request](#)

wtf - April 18, 2019, 6:15 pm

Hi,

I was wondering if it was possible to get a thread removed from 2 years ago.

In the thread someone has used my name in a negative way which i would really like removed as it shows up in google search.

The thread I'm talking about: <https://hackforums.net/showthread.php?tid=5302217>

Thank you ?

you can just pm a staff about it and they will remove it

It's not even your thread...

Many requests are made but I doubt it is going to be removed.

That's a bummer would they perhaps remove any msg with my name in it?
