STRAIGHT TALK WIRELESS SERVICES BY LOVEYOULONG

AT LOVEYOULONG "WE GOT U BRO FRFR"

Phone Number/IMEI Pairs (Use the service, or use to remember forgotten google account login, see what bank being used, overtake bank account with control of email/phone number).

One guy we sold a set of 100 of these to set up an SMS gateway on his android phone - He spammed phone numbers text messages asking people to sign up on "Shop Kick". His first couple tries he got banned accounts, then he got smarter dividing up across many individual accounts, we got told he cashed over \$22,000 of gift cards now (less than 4 months screwing around with it part time on a few hundred dollar start up gig - WOW!)

Phone Number + IMEI w/ 1-3 days of service left - \$3/each

Phone Number + IMEI w/ 4-7 days of service left - \$4/each

Phone Number + IMEI w/ 8-14 days of service left - \$5/each

Phone Number + IMEI w/ 15 - 29 days of service - \$7.5/each

Phone Number + IMEI w/ 30-59 days of service - \$10/each

Phone Number + IMEI w/ 60-89 days of service - \$15/each

Phone Number + IMEI w/ 90+ days of service - \$25/each

Phone Number + IMEI w/ 180+ days of service - \$50/each

Add \$2/each if you require NPA (eg. 760-XXX-XXXX) ... Add \$5/each if you require specific NPA/NXX (eg. 762-333-XXXX - This can be used to target "Rich" areas with higher value targets)

Service Plans in "Straight Talk Reserve"

Call customer service, stating applied to incorrect phone, transfer to line of your choice, once applied - Never reversed:

You will receive account credentials and all required information to transfer, if transfer fails a replacement will be issued with copy of recorded phone call provided.

50% off of plan price - No extra charge for account information (Eg. Ultimate Unlimited \$55 in reserve w/ phone & active service = \$27.50)

IMEI Lookup Service

You provide the phone number, we provide the full IMEI registered with account - \$75

Straight Talk Rewards Points

Minimum order of 10,000 Points (Good for purchase of \$100 of Straight Talk services) - 75% OFF

We can load your account w/ supplied phone number (We do not require your account credentials, but they will be changed in the process, do not attempt to access your straighttalk.com account until order processing complete)

Points are generated from service line activations, not heavily watched referral bonuses.

Please note, there is a wait of 30 days before points become spendable

High Value Vanity Phone Numbers

Resell for absolutely massive profits! Profit insane amounts! 95% off "Number Barn" price!

We overwrite any account details (not just update) including account pin and security question. You would appear as the original/only owner of the relating account.

For example, "ABC-XXX-XXXX" might have a market value "list price" of \$35,000 - Your's for \$1750. Slash the price and list for \$9,999, Number Barn commission of 30% still leave you with a \$5000+ profit.

Submit a "Number Barn" Vendor Application (Easy Approval), port in the phone number and put it up for sale!

Custom Services:

We are totally open ended and love fucking over Straight Talk and their predominantly yankee white trash walmart lover customers! Always happy to help !

Down on your luck but think you can make something out of this ? Write up a solid plan and we will seriously consider taking your under our wing or backing your venture with whatever you're thinking "Straight Talk". We got you bro.

Escrow / Payment / Contracts / Whatever

Payment by Bitcoin only. No escrow. We will simply provide you with your purchase up front if we do any business together. We are looking for long term mutually cooperative and beneficial relationships. We were honest hard working folk but now we are high on drugs, drunk and like stealing shit like yankee phone time. We hope to find SERIOUS and LIKE MINDED partners for the LONG TERM and never advertise openly again. So if you run off and don't pay us - "You got us brah". We are looking for real men and women that want to work hard and play even harder.

(Fair warning #1 : If you don't pay us... When you least expect it... expect it)

(Fair warning #2 : Sometimes we party way too hard and fuck things up, we might be consistent for 3 weeks then get on a real bender. So, if we aren't responding its probably because we are having too much fun or are sitting in the nick taking a lil forced break of sorts)

[contract=tid]Start Contract[/contract]

PRICING

We are just looking to make a buck, and our pricing is simply a guideline. We will be totally honest, we simply don't know the value of our services. See something you like or just wanna try something out ? We got u bro. We are negotiable and looking to build a rep more than anything else at this point so hit us back and LETS DO THIS

I love this!! Practically everyone I know shells out 55 bucks a month for phone service then pays metronet or some other crook company 80 or so for home wifi.

I would love to get in on some of that cash. I will be in touch soon.
