Thread: [\[VERY EASY\] Earn FREE Gift Cards - Limited Copies \[Amazon, Target, Chipotle & MORE!\]](#)

Khasper - April 19, 2019, 10:46 am

Alright, not going to bother making a lengthy thread design.

This method is extremely easy to do. I would consider it to be greyhat as technically you are "exploiting" a system.

The method is 8 steps long, each step is roughly 1 sentence.

Features:

- [+] Extremely easy to do
- [+] Works worldwide
- [+] Results can be seen quickly
- [+] No investments required
- [+] Limited copies to prevent this from being patched

Which gift cards can I redeem?

Amazon, Target, Chipotle, Starbucks, Visa, Paypal withdrawal & more.

Price: \$45

Contact me at live:hf-business on skype if you have any questions

Purchase link: PM me to purchase

Copies left: 3/5

Why am I selling this?

Easy answer here. It's not really an "autopilot" method, and I can't be bothered to fully perform it.

Does not include:

Social engineering, leaving reviews, talking to anyone, gambling, any upfront investments, anything to do with cracking/hacking, anything that is blackhat or illegal.

I'll review this and leave a vouch for you if you would like.

flavoral - April 19, 2019, 10:50 am

I will gladly take the vouch copy for review :)

This is interesting if it really doesn't contain the stuff you claim it doesn't.

I am willing to take a vouch copy, how much effort does this take to get a gift card?
how much are the gift cards worth?
How often can I do this?

I will take a vouch copy, thanks

OneEightSeven - April 19, 2019, 10:56 am

if you are still giving a vouch copy out I would like one. thank you

How long does it takes to get 1 GC & what is the value each time?
Is it guarantee to work every time when performing he method?

Ariaa - April 19, 2019, 1:49 pm

I received a copy of the product and this is my opinion on it.

This is a viable method given that you have sufficient time to perform it. The price of the product I believe is too high considering it does not earn your initial investment back efficiently. OP does include methods to speed up certain processes but overall the method is straight to the point however nothing too special. There are many similar methods but I am yet to see this specific one. With some creativity, you can implement this elsewhere and increase your profits more, however.

As expected.

1 question, is it worth for you to do the effort to get a \$50 giftcard?

????????????Michael Kors - April 19, 2019, 2:05 pm

What's the denomination of the cards we will be getting?

Is this still available? If so, how much would it cost/would you give a vouch?

magallanes - April 21, 2019, 5:22 pm

Good morning, I would like you to answer some questions:

- How many AGC, Visa or PayPal can I get in a day?
- What is the minimum demonization?
- I have to use VPN?
- Do I have to call, write or write to someone?
- I have to talk to some support?
- I have to buy Bitcoin?
- I have to invest something extra besides the payment of the guide?
- How soon can I recover the investment of the guide?
- Does this have something to do with G2?

Khasper - April 22, 2019, 1:53 pm

Messaged both of you guys

For the record, this is nothing about g2crowd, there is no investments, no bitcoin, no talking to someone, no talking to support or social engineering, you need a VPN

Open to give a discounted vouch copy (\$25)

My review:

The method does not work, performs several tests, after 24 hours, the balance that should have to collect, disappeared, since the site administrators, manually review, the method does not work, I do not recommend it at all, perform several tests in 24 hours , not just one, I totally discard it.
