Thread: [Unable to edit my thread.](#)

Nikola Tesla - April 20, 2019, 2:34 pm

So i wanted to update my free proxy tool here and i was looking to edit thread but i am unable to edit it sadly. Any reasons for this? i can only release it here cause i am not active on other forum and i have linked tool with my hf profile link.

My Thread: <https://hackforums.net/showthread.php?tid=5124892>

I wasn't sure where to post since i see many changes in this section here we had support/uber section for help so if it's not allowed i am sorry.
Any kind of help appreciated.

Thank you ?

Nachfolger - April 20, 2019, 2:52 pm

Uh, it's from 2016? Lock it and make another one, or make a new post in the thread.

SIM-1729678 - April 20, 2019, 2:56 pm

UB3R members have an edit restriction of I believe 180 days.

Nikola Tesla - April 20, 2019, 2:58 pm

I know it's from 2016 but i have edit year ago and issue is my all old version since 2016 have that thread linked up. Idk what's big issue to let me edit a thread which is freeware tool.

Oakland - April 20, 2019, 2:59 pm

you can only edit thread if its stickied so pony up the money and stop crying

SIM-1729678 - April 20, 2019, 2:59 pm

/Close

Open a new thread. Simple as that.

Nikola Tesla - April 20, 2019, 2:59 pm

Since when? so i can't edit that thread anymore now? it's not that i am editing sales thread page. It's my free old tool which i can't share on other forum cause i have linked thread with it.

Prince™ - April 20, 2019, 3:00 pm

Perhaps one of the staff members or admin could help you with it. I really doubt if they will though.

Riyu - April 20, 2019, 3:00 pm

It's been like this for a few months, maybe even a year

It's to prevent thread edit abuse (people editing out the contents of their threads)

Nikola Tesla - April 20, 2019, 3:03 pm

Damn i have linked up all my old version with that thread and if there is no way to edit thread then it's better to move on to some other forum. I can't keep editing thread every 180 days to make sure i can edit again. I was sharing some free tools since long time here without any issue but if you restrict me to edit the thread even after being uber member for over 6 years then doesn't make sense i guess.

Omniscient - April 20, 2019, 3:14 pm

Buying a Sales Tag or Sticky lifts the edit restriction.

Nikola Tesla - April 20, 2019, 3:17 pm

Rip thread then i made nothing from it till date in last 4 years but still kept updating it. Disappointed to be fair will have to find out new platform to release it.

You can get a cheap \$10 sticky for a week to edit it.

Nuworld - April 20, 2019, 7:23 pm

I guess he would have. Maybe he wonders if it's really worth spending money for that thread which contains something for free?

Can you offer something where i can pay like \$15 and get unlimited edits for that thread? I am basically stucked right now. I don't need sticky or anything.

I think you need to spend \$100 to buy vend0r so that you can get unlimited edits.

Some awesome features Ub3r had is now with vend0r.

\$100 is too much. I have purchased l33t and ub3r in past already and if i will buy vend0r now in 2 years admin will make something new and stop those features to vend0r as well so i will have to pay \$1k to get that next upgrade. Doesn't make sense specially if i am doing it for freeware but i think \$30 - 40 is fair price specially cause i have purchased ub3r, leet in past and have been old member here.

Untrue. 99% of Vendor features are new and never came with Ub3r. Same with unlimited edits, that stopped a long long time ago due to abuse for Ub3rs.

Yeah but when i purchased l33t/ub3r i saw i was able to make unlimited edits. I don't think you should restrict someone from editing who has been upgraded member, sure you can limit ones who abuse it but just because of 2 - 3 people abusing it's affecting many other people. Maybe don't allow editing in marketplace section for everyone but in free sharing section you can allow it.

Yeah, I have l33t, ub3r, and 3p1c but still, I can't edit a thread. I asked for a price reduction when vend0r was launched but I was told by an admin that it is not going to happen and to deal with it. After all, it's his forum and he has his own profit model.

Complaining about HF policy is a good way to make sure you can't come back on HF.

I imagine when that feature was given to ub3rs it wasn't expected that people would abuse it as much as they did.

Just make a new thread and link that one what's the big deal lol

Nikola ?esla - April 22, 2019, 12:14 am

What's guarantee that people who have vend0r won't abuse it? and admin would stop feature for them as well and start something new.

Pretty sure continuing to complain and argue will bring you nothing good.

Pony up and spend 10\$ on a sticky if you really want to edit that thread or simply open up a new one. No need for drama.

To answer your question no one does but there is a application process for V3ndor in place.

A question if I purchase Vendor, how long do I keep being in that group? Is it permanent or is it only a limited time?

It's a permanent group.

Nikola ?esla - April 22, 2019, 12:43 am

I think maybe they should have kept uber upgrade work for year and pay to upgrade it again that would have solved most issues maybe. But yeah i created new thread yesterday itself and issue was solved i was just discussing about new rule. Thanks for all help and i am gonna close this for now.
