Thread: [12 hours botting 2 accounts](#)

Sanchez Sales - April 21, 2019, 4:43 am

So, I've started a farm, Starting with 2 accounts to build profits until Others are ready to step in, I currently have 44 tutorial island accounts on stand by, 5 of them are botting reqs for chinchompas, 1 is botting black chinchompas. the others will be doing Red chinchompas until high enough hunter level to catch black chins efficiently.

this is night 1 of botting 2 accounts.

5 more bonds just purchased / Thats 5 more accounts to add to the farm :):

4/22/2019 morning:

2 new chin hunters were banned at level 65 each, Now replaced with 2 more. About to start 3 more progressive hunters to catch up to the others.

the night of 4/22/2019 - the morning of 4/23/2019

Latest update, Overnight while I slept,

Successfully got level 80 hunter on 2 accounts. the third is 77

Ran 3 accounts hunting chinchompas, 2 red 1 black

Looking to start a trustable partnership.

Very nice man.

Are you using private scripts or? I've considered running a farm a few times but figured it would be an insta ban.

All of my scripts are provided by OSBot. Since I'm only running natures and hunting chins, I most likely will not be doing private scripts. I will be using private scripts for more complex private methods in the future.

The current VPS set up I'm using is

CPU: ten cores

Intel® Xeon® E5-2620v3, E5-2630v4 or 4114 processor

60 GB RAM (guaranteed)

1600 GB disk space (100% SSD)

100% SSD disk space

UNLIMITED traffic !

1 Gbit/s port

DDoS protection (details)

Costs: \$30/month provided by Contabo, Using ubuntu with xubuntu installed and viewing with tightvnc.

If you want to create a unique script I'd like to ask you if you'd like to do it?

Running Rcing bots but instead of making them yourself, it'll trade the pure essences to an account which can make x2 (i'm not at that stage at the moment), be a nicer alternative to get 99 rcing.

Yeah im very interested in botting. 30 a month for that isnt too bad.

If you ever considered expanding and looking for a partner, let me know. Also I heard Tribot is like the best bot out rn, but not super sure since ldk much about botting. Just what i have heard.

Very interested to see your progress and how long you can run the accounts.

I have a script that has a worker and a master script. You can be on the official osrs client on your main and have 4-5 bots bring you essence.

Hey man,

Really liking all of the information on the thread.

I'm looking to start my own bot farm up and I was wondering if you'd be able to PM me and help me set up?

Would really appreciate it!

Is it worth it?

Usually botting tends to not be worth it except if you bot lots of accs at once

To flip a profit. For bonds / vps I need to pull 80mish a month for the accounts I'm botting right now. In 2 days I've made 20m off 2 accounts. That's a full 24 hours cycle. Not suiciding. I have 2 extra accounts added to red Chins now and 2 more being prepped for red chins. I have 40ish more to setup bond up and start hunter. I got a few other stats up from using stealthquester from osbot to level random stats to be not so bot like.

I've never played the game so I have a bad time trying to understand your terms lol.

But if I am not wrong, you made about 10-20\$ in one day?

On just two accounts that took 3 hours to prep

ama - April 21, 2019, 9:41 pm

Good luck with this man, hope it goes well

1tap - April 23, 2019, 2:42 am

I am making scripts for osbot if you need anything ;)

Funny thing is, I got hit in a chain ban this morning, All of them are banned :D Restarting farm and changing break schedule more to tweak the activity of it.

So far successfully got it to 30 agility 44 RC 40 smithing 48 att 50 str 38 defence with 10 qp done,
So now I just break out several different stats and see where it goes from there

hey ill send u a pm about something

ProtoUltima - April 24, 2019, 11:50 am

Really enjoying this progress and thank you for keeping it updated, it gives me a clear view on the difficulties you can face. I'll be sure to message sometime for more information!

Jirachi2 - April 24, 2019, 2:58 pm

Yeah looking forwards to the progress on this man, I remember back like 8 years ago I botted my main to 99 mining and strength. Those were the days.

shreder - April 24, 2019, 6:34 pm

did you take any profit yet or all that gp gone?

Walked out with about 50m total

??????????Michael Kors - April 24, 2019, 7:40 pm

How do you manage to not get banned?

Ramune - April 24, 2019, 7:57 pm

Watching this thread, I tried this a while ago but eventually getting hit by so many chain bans got frustrating.

I wish you the best tho.

shreder - April 24, 2019, 10:42 pm

I've only beaten Jagex banning system once 30 days straight 24 hrs suicide. Can only beat em if you know what to do.

Really interested in this, are there cheaper providers for smaller operations?

Ovh or lowendbox

Nuggget - April 28, 2019, 12:50 pm

ive been wanting to get back into botting. i botted diablo 2 and 3 for several years, often 24/7 for months without getting banned and loved it. had a power leveling and legendary/questing service on a forum or two, was fun and profitable.

however, seems like it's almost impossible to bot that efficiently OSRS. is rs3 profitable? OSRS is just a game im struggling to get interested in, i just beat tut island and am about an hour into just walking around and not really finding a good game structure. RS3 looks like a much better game to actually play, i know the gold value makes it not AS profitable but i know nothing of either games really. i'd love to bot and profit off path of exile but i don't know if there are anyone working on bots for it i havent even looked.

edit-i know you dont need to play or enjoy a game to bot it, but that kinda sucks to me.

aternoted - April 30, 2019, 4:15 am

How much you earn from botting?

Maxrep - May 17, 2019, 9:40 am

using powerbot? is that still a thing haha ?

Prifddinas - May 17, 2019, 9:52 am

Hello, can you pm me your discord? Id like to talk to you about bot farms and possibly start a partnership. I know how to develop bot scripts and have a idea in mind.
