Thread: [Dorrance has Disputed a Contract with the6ix \(3567531 \)](#)

So user posted a thread, stating he had \$500 BTC and need PayPal willing to do 1:1. So for the past few days I thought something was up with. Then posted right as he was gonna do \$500 deal with me yesterday he had \$200BTC. He kept trying to press about exchange stating he had bills to pay, so I went first & we discussed in PM we would do \$100 increments if he wanted \$700 in PayPal instead of just doing the \$200 or \$500 talked about. Before I knew it when he edited the contract to put his PayPal email he marked it as complete. So by the time I knew it I sent the first partial of the \$200 which if it went smooth, I would exchange more with user. Which he has been offline for an hour and was last seen viewing my profile. I noticed he had lots of popular users post they would deal with but he kept coming to me.

Judging by how he responds and talks, he is a blatant con-artist. Sorry for your loss.

I hope he gets struck by lightning.

I saw his thread and it looked a bit suspicious, but I didn't look to closely at it.

Yeah, it's easy to spot someone with no friends trying to act like they are big ballers.

Guy claims to make 6 figures yet he tries to sell some shitty e-book for peanuts here haha. Such a joke.

Sorry for your loss OP.

Do it look like I like my time & money wasted. Do you want to wait 24hrs for \$100 if that money involved you making 4-6 figures? This thread will stay open until he either figures it out no more then 12hrs tops.

Was that the kid that said his kid bought 25k worth of BTC by accident? It amazes me, it truly does, on how GULLABLE people are here.....

First we have that fag Nuworld saying he's a fighter pilot, we had I think Armada or Mr robot (i can't remember which saddo) saying they had backup vaults full of gold and now we have people believing that some dude allowed his child onto his phone, which accidentally bought BTC in the sum of 25k.....YEA RIGHT, I wasn't zipped up the back upon birth.

Next story the Gullible squad will suck up is when some guy says he actually rode a rainbow-colored unicorn.

This is why I take EVERY single thing people here say with a pinch/punch of salt.

Also rip on your finances OP, probably gone, who knows.
