Thread: [Need beta testers](#)

Nosfir - April 22, 2019, 10:37 am

hello! I'm currently in need of 4 beta testers for my loader (which currently just has a place holder name.)

It's c++, it will not be obbed, so I'm entrusting you not to leak it. The payload is not silent, it's a debug console and it would not be wise to spread it.

Also this is for ub3rs (maybe l33t.) only.

Takehito Morokuzu - April 22, 2019, 10:39 am

I can test it if you want. Is it HTTP?

It is HTTP thanks for mentioning

AnonTri - April 22, 2019, 11:38 am

I could look at the panel if you want. I'm not much for executables but pretty good with php

I'm not really looking for people to go over the code, I just need people to test it

That's fine. Mind if I take a test run of it still?

Dark Spider - April 30, 2019, 2:08 am

If this is Darkrat , guys do not download this shit it's backdoored and exploitable

A patched version I on github pm me for download

Actually god sir it's not in any way shape or form related. If you must know I had a few testers and people to step up, I was working on basic Lang conversion on a few common botnets :)

Lemme know if you need anymore testers ;)

Xiang - May 3, 2019, 8:11 pm

If you need anymore testers let me know ^_^
