Thread: [I will Hack Any Website of your choose | Temporary Give Away |](#)

DNS Leak - April 22, 2019, 2:25 pm

Yeah so thread subject are saying what i'm doing.

Basically i have a lot of free time right now so if anyone want to check if your website is protected good contact me.

I have one method and for Facebook accounts.

You can contact me only via telegram @DNSLeak

dredos - April 29, 2019, 3:50 am

Can you hack Google for me?

Dude, it's a scam.

BTC - April 29, 2019, 3:54 am

My request is for you to hack this website (hackforums)

Then give me 200k bytes so I can satisfy my gambling addiction.

Jk, on a real note I believe Omni pays for bug bounties that are severe or detrimental to the website. I know I seen a post somewhere but am not sure if it's still active.

system96 - April 30, 2019, 4:45 pm

What is price? tell me I will pay

MidgetSpooderman - April 30, 2019, 5:36 pm

Dont bother with this OP hes a scam artist, i messaged him on telegram to see what his motives were, tried to get me to download a desktop control program for him to use on me. Dont waste your time here.

Thanks @midgetspooderman

are you able to tell me if this person is a scam? username @accesslogs

Hi I want to hack an account in a website.

I think my significant other is cheating on me and I want to hack their I account to find out.

Yeah guys, don't fall for this scam artist.

Hope you get banned real quick...
