VAC Undetected. Fat losers get pissed off because they cannot enjoy their video gaming experience. Get fucked.

Nice guy, I hack in TF2 but only in MVM, if you hack in pubs you're just terrible, the game is full of 10 year old Russians anyway it's hardly difficult

It's a stupid video game so who really cares? It's not a sport or a real life game.

StarZ - April 23, 2019, 10:43 pm

Hacking in a free game? Cool I guess. Never personally had the desire to cheat. I play casually, not taking everything seriously so I suppose I haven't had the need. Sorry about your micropenis though.

Lulz - April 24, 2019, 10:47 am

Why would you? You're only really cheating yourself by taking the fun out of it

HOMODIN - April 24, 2019, 10:53 am

Not sure what you are trying to achieve here with this thread, it's nothing to brag about really nor anything worth even mentioning. You are just ruining the game for others and not to mention, you are cheating yourself out of actually getting good. So yeah, you must either suck big time or then you are just salty as fuck at those who beats you....come to think of it, I can imagine how you would act in GTAV...

This is not something I would brag about.

ShinyThings - April 24, 2019, 11:16 am

Weird flex but ok... not sure what you want from us by admitting this.
