Thread: [Feature where users can bet Bytes?](#)

Sunniebeta - April 23, 2019, 12:24 am

How dope would that be? Users being able to bet Bytes. I know there's a slot machine and lottery but how about betting? 1 on 1 betting? ?

We're exploring options for this. It might be a while before something is implemented.

Sounds dope as hell! Thank you so much for considering it! ?

Mix - April 23, 2019, 2:50 am

a coin flip feature ould be cool

A + - April 23, 2019, 3:21 am

Influence just got sold so I lost all my bytes. I was fixing to go for that dicey award too. A solid coinflip game would be cool. 1v1 in a minesweeper game or something. POKER WOULD BE TIGHT! I'm a hold em player, hold em on a byte system would be cool. That is kind of asking a lot though lol

A 1v1 coinflip would be dope,rdy to lose all of them =D

ShinyThings - April 23, 2019, 4:01 am

Coinflip would probably take longer to make I believe.

I think a poker system would be best and I personally would only play that over slot machine, blackjack and scratch card. So many fish here, it would literally be a shark heaven hmm.

Riyu - April 23, 2019, 8:50 am

I made a thread awhile ago saying we should have a way to bet against each other and the game chooses a winner randomly.

denied :(

Fucking A. That's what I was thinking too.

Joy - April 24, 2019, 1:58 am

Maybe there could be a sports betting using bytes implemented here too. Might be pretty hard to bet bit it would be a cool feature imo.

Spaz - April 24, 2019, 11:12 am

I think a dice roll feature would be nice, 6 possible multipliers and about 1:14 chance hitting 6

Sunniebeta - April 24, 2019, 5:38 pm

I feel like we should be able to upgrade ourselves with Bytes.

Lulz - April 24, 2019, 5:47 pm
