Thread: [CPAGrip Content Locker question](#)

gabyto - April 23, 2019, 11:53 am

Please need help, do people have to complete all the offers to unlock the content or completing any one offer can unlock?

Frankey - April 24, 2019, 12:06 am

Most of the times it's one offer. However at a lot of content locking networks you can also change the rules to two or three offers etc.

Uiqueblhats - April 24, 2019, 1:13 am

Its upon you to decide how much offers you want from your traffic.

i want 3 offers to show but what i dont know is must the 3 offers be completed in order to unlock the content? if that is the case, then i have no choice than to set it to show only one offer. i think completing 3 offers just to get access to my content is something users might find not easy.

thanks you .

is there a rule let say - 3 offers shows before user but i want user to complete any one of the 3 offers to unlock?
