OP Bustadice Script by Script

RECORDED PROOF: <https://www.youtube.com/watch?v=nx2YTM3kZxc>

If you dont believe this is me, check my profile: <https://bustadice.com/player/Roky> (I busted because I tried manual betting it)

All those bits together is worth \$710, only in 2 days (approx. 1-2 hours)

OP BUSTADICE SCRIPT

This script is \$40.00 BTC and is a relatively fast earning script which can increase your balance very quickly; (gained over 500\$ with this script). This is a median based script which checks on the history of your past rolls and adjusts the target size, bet size depending on the outcome. The change in bet size and target size is also accustomed to your current bits balance, so it's scaled and getting faster profit as your bankroll increases. The RECOMMENDED BALANCE IS 20k (30k to be safe).

SUPER SAFE SCRIPT [RECOMMENDED]

This script is \$35.00 BTC and is a relatively slower earning script which can bring a comeback to a low balance over a period of time. This script has a fancy GUI to alter the script easier. This script focuses on skipping the amount you set, if chasing X was found in skips, it resets the counter of skips, if x wasn't found in skips, it starts to bet after skips amount you've set in the GUI. Any low balance between 1k-2k will suffice for this script.

I WILL BE ONLY SELLING A LIMITED AMOUNT OF COPIES FOR EACH TO AVOID THIS BEING LEAKED.

TOS:

If you end up losing your money, you will not be issued a refund.

This script isn't 100% guaranteed money, there is a chance you could drop to zero.

Please deposit a high amount such as 10-20k if you want a less chance of dropping to zero quickly when using OP BUSTADICE SCRIPT.

ALWAYS keep an eye on the script as you may drop fast at times.
