Thread: [Bytes error](#)

**Joy** - April 24, 2019, 2:01 am

I am getting 2 bytes for every post i make instead of 1 byte which is the amount one should get for a post and 6 bytes for every thread i start. Or is there still a 200% bonus for upgraded members like the one in bonus bytes weekend?

Also yesterday i logged into my account and found i had 100 bytes instead of 140ish i had before. Some of the bytes mysteriously disappeared. I assume its because of Influence group being bought and all the threads being junked which caused the bytes which weren't obtained from those threads to be removed too.

**Netflix4dayz** - April 24, 2019, 2:46 am

so your complaining that you are getting doubles bytes

are you not on your meds anymore?

there just fucking bytes. who really gives a shit if you get 2 bytes instead of 1 per post

**Lonely** - April 24, 2019, 8:12 am

If I'm not mistaken, the UB3R group has a 200% increase in the amount of Bytes given per post or thread.

Also, pruning of posts or threads will cause loss of your Bytes earned from them.

Bytes earning bonus of 200% for post replies and new threads.

<https://hackforums.net/upgrade.php>

Can start their own Bytes Lottery  
Bytes earning bonus of 200% for post replies and new threads.  
1000 Bytes granted

Oh. Just saw Hopsins post.  
Well the thing is those bytes weren't earned from those threads which were pruned.

Doesn't matter if the posts were made before Bytes existed. They will still reduce from your balance when a group owner mass clears their subforum.
