Thread: [RECOMMEND BEST ONLINE VIRUSSCANNERS WITH great privacy and no distribution](#)

theprogamer20 - April 24, 2019, 6:19 pm

Please anyone really experience recommend a great online AV scanner, who has a very good privacy standing and wont distribute files .

Kaspersky really does the trick for me, though I've heard some complaints about it in the past. Also, using VEIL has made me understand what the privacy we are seeking should actually be.

I think the OP means an online anti virus scanner that wont distribute his files among cyber security firms. I have found this scanner [here](#) how ever i cant be sure they don't distribute though.
