Thread: [How to reach Prime status and boost rank/private rank](#)

Neewman - April 25, 2019, 4:17 am

Hey I've been wondering if there are any programs to easily reach prime or to boost ur account? I can't imagine that those smurf account sellers are leveling up those accounts by themselves

There are things called walkbots, where your player acts like a bot and walks around and kills people. You would need to use your own computer and it would take a lot of time to reach lvl 20 because there are xp decreases after a few games.
