Hi,

I can obtain any inactive Instagram in a matter of 2-4 days.

OGs: negotiable

Non-OGs: \$3,000 BTC

A middleman holds funds until you have the IG.

If you have nothing nice to say, leave the thread please.

Firstly, nah.

Secondly, nobody's making you buy anything.

Honestly I'd have easily traded my \$20k main @ for my first name had it been offered.

Pretty sure there's people in a similar position just looking to claim their business name or personal name.

I'm not hungry for customers, this is just a side-gig, and I haven't really seen any truly legitimate service recently for a lesser price either.
