Min price: 3k BTC

MM can be used at your expense.

Shoot me a PM if you need this don't post the handle in the thread.

go away lol

VelocityMach - April 27, 2019, 4:02 am

\$3k seems pretty high compared to others.

tcsh - April 27, 2019, 4:53 am

Sorry but this doesn't seem trustworthy at all.

I got 3 handles I've always been after, all of them inactive.

Get me one as a vouch copy, I'll write a review then pay you for one of the others. About the only way I'd consider trusting this so far, no offense.

Either way, good luck with it!

Lmk.

Oh!

Well!

If you're vouching for him...that just makes it better.

Lemme just get out my checkbook...

Pls stfu. If you wanna hurdle 3k around a MM, paying % in case he does scam only to get your \$ back, well then that's on you.

I'm not in the habit of taking 3k on a walk and potentially losing another sum just to get it back.

?

Then people can try themselves and see how far they get.
If you don't trust OP, just use a MM?
If OP fails, you'll get your money back, regardless of any public method that he may be using.
