as first comment i want to ask what's is allowed to host on them?
it is bulletproof server?

kylinweb - April 29, 2019, 4:16 pm

do you allow botnet in your server :) also do you have windows plan

vpsnet - May 14, 2019, 3:56 am

Greetings members,

All our services are based on fair usage (you should not overload resources like CPU, Network Disk I/O etc.)

and of course your activity should not attract complaints, because then server can be suspended.
We are not checking content of VPS servers until there is no reason to do that

Sincerely
VPSnet

Is cracking allowed on these servers ?

HardRock - July 7, 2019, 9:54 pm

worst service. no warning nothing they just suspend the whole account with server.

i could have raised the refund but what you did was wrong . you would have deleted my server i would buy another server for legal usage only whats there to delete whole account for ?

StickTalk - July 8, 2019, 10:24 pm

I'm looking for a good host for a community forum. Send me a message with some contact information, would love to speak with you

Hello Mr.HardRock,

We are sorry to hear about your experience and situation that we put you in, but in future we suggest you to read TOS (EU law too), which you agreed before registering and ordering services from us.

Services was used for illegal activity such as SPAM. Also we have got a lot of complaints about your activity, so we were forced to cancel Your current (one) service, but we didn't block whole account.

Sincerely
Team VPSnet

HardRock - July 16, 2019, 10:09 pm

uh!

I do agree server was blocked due to SPAM . But you blocked my whole account

you can delete or suspend my server to avoid your TOS but why whole account ?

i hope you will reinstate my account.

thanks.

do you allow normal porn on your server? it's just normal porn not child porn :)

markcs64 - February 2, 2020, 11:18 pm

Hello, you are not responding fast to issues on the host. Also the ticketing system is not really the best. Kindly respond to emails

Greetings cla4cky,

Apologies for the late response. In future we suggest you use our live email or live help to contact us.

Now to answer your question - you can host a website of any LEGAL adult content (except child and zoo porn and so on)

and keep EU law (warnings about N18 content and so on).

All our services are based on fair usage (you should not overload resources like CPU, Network Disk I/O etc.)

and of course your activity should not attract complaints, because then server can be suspended.
